Storyline:

**In an Asylum for human test, a Patient tells us his life, made of painful tests and punctures. The Patient keeps on having the same dream with a girl. One day, during the resting time of his day, a mysterious girl opens his room's door.**

Patient 1642 (20/25) – Caucasian – The Patient has lost his mind after all these experiments. His behavior is unconfident, dreamy and totally disconnected from the reality; he doesn't understand what's really going on.  
LEAD

Doctor/ Woman (25/30) – Caucasian – Long brown straight hair, we saw her in the Patient's Dream. While she has the mask, we don't know if the Doctor is a man or a woman. We understand who she is only when she takes off his mask. Proud and confident, she has total control on the Patient, an adoration for his prey. LEAD
